## A BILL

To require the imposition of sanctions with respect to certain persons in the defense sectors of nuclear weapons states that are not fulfilling their obligations under article VI of the Nuclear Non-Proliferation Treaty, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Strongly and Unam-  
5 biguously Sanctioning Proliferators Exploiting Nuclear  
6 Diplomacy Act of 2020” or the “SUSPEND Act”.

1 **SEC. 2. FINDINGS.**

2 Congress makes the following findings:

3 (1) The governments of nuclear weapons states  
4 have committed, in accordance with article VI of the  
5 Treaty on the Non-Proliferation of Nuclear Weap-  
6 ons, done at Washington, London, and Moscow July  
7 1, 1968 (21 UST 483) (commonly referred to as the  
8 “Nuclear Non-Proliferation Treaty”), to “pursue ne-  
9 gotiations in good faith on effective measures relat-  
10 ing to cessation of the nuclear arms race at an early  
11 date and to nuclear disarmament”.

12 (2) In 2018 the Nuclear Posture Review con-  
13 firmed that—

14 (A) “[t]he United States remains com-  
15 mitted to its efforts in support of the ultimate  
16 global elimination of nuclear, biological, and  
17 chemical weapons”;

18 (B) “[w]hile the United States has contin-  
19 ued to reduce the number and salience of nu-  
20 clear weapons, others, including Russia and  
21 China, have moved in the opposite direction”;  
22 and

23 (C) the United States has “long sought a  
24 dialogue with China to enhance our under-  
25 standing of our respective nuclear policies, doc-  
26 trine, and capabilities; to improve transparency;

1 and to help manage the risks of miscalculation  
2 and misperception”.

3 (3) On May 29, 2019, the Director of the De-  
4 fense Intelligence Agency, Lt. Gen. Robert P. Ash-  
5 ley, Jr., stated—

6 (A) “Russia is upgrading the capacity of  
7 its nuclear forces. We assess its overall nuclear  
8 stockpile is likely to grow significantly over the  
9 next decade.”; and

10 (B) “Over the next decade, China is likely  
11 to at least double the size of its nuclear stock-  
12 pile in the course of implementing the most  
13 rapid expansion and diversification of its nu-  
14 clear arsenal in China’s history.”.

15 (4) In 2019, the United States-China Economic  
16 and Security Review Commission reported to Con-  
17 gress that—

18 (A) the People’s Republic of China’s “en-  
19 hanced program of military-civil fusion seeks to  
20 mobilize civilian technological advances in sup-  
21 port of China’s military modernization”; and

22 (B) “As part of military-civil fusion, Chi-  
23 nese firms obtain dual-use technologies through  
24 overseas acquisitions supported by government  
25 funding. For instance, since its creation in

1           2008, state-owned defense conglomerate Avia-  
2           tion Industry Corporation of China (AVIC) has  
3           spent at least \$3.3 billion acquiring at least 20  
4           aerospace, automotive, and engineering firms,  
5           mainly in the United States and Europe.”.
